

# SARANSH SAINI

Roorkee, Uttarakhand

| +917351952643

| saranshsaini635@gmail.com

## EDUCATION

### COER University

Bachelor of Technology (B.Tech) in Artificial Intelligence & Machine learning . CGPA : 7.5

Roorkee, Uttarakhand

Jul 2023- Present

### Holy Cross School

Senior Secondary (Class 12). Science Stream . Percentage: 78%

Laksar, Haridwar

### Holy Cross School

Secondary (Class 10), Percentage: 89%

Laksar, Haridwar

## EXPERIENCE

### Artificial Intelligence Intern

20 June- 21 July 2026

CODE ALPA( Remote)

- Developed and implemented AI/ML solutions using Python, applying data preprocessing, model training, and evaluation techniques.
- Worked on practical AI projects involving machine learning algorithms, data analysis, and predictive modeling.
- Applied Python libraries such as NumPy, Pandas, Scikit-learn, and Matplotlib for data processing, visualization, and model development.
- Gained hands-on experience with the end-to-end ML workflow, including dataset preparation, feature engineering, model evaluation, and performance improvement.

## PROJECTS

### CampusGuard – AI-Based Student Security System

Oct 2025- Present

Python, Flask, Firebase, OpenCV, YOLOv8

- Built an AI-powered real-time student safety and CCTV monitoring system with automated alerts.

### Online Voting System

Jan 2025- Feb 2025

HTML, CSS, JavaScript, Flask, Firebase

- Developed a secure web-based platform for online voting and election management.

### Travel Chatbot

Mar 2025- April 2025

Python, Flask, Teleport API

- Built a chatbot providing dynamic, real-time travel recommendations using external APIs.

### Gesture-Controlled Application

Python, OpenCV, MediaPipe, UDP

Nov 2025- Jan 2026

- Developed a real-time gesture recognition application with Socket/UDP communication.

## RESEARCH WORK

### Research Paper On Carbon Emission (Eco-Barrier)

COER University

- Worked on a research paper in the field of managing the carbon Emission
- Focused on problem-solving using small-scale vertical plantations of herbs and other high CO2- absorbing plants
- Paper is currently submitted for publication through college

## TECHNICAL SKILLS

**Languages:** C, C++, Python, Java, JavaScript

**Web & Backend:** HTML, CSS, JavaScript, Flask, REST APIs

**AI/ML:** OpenCV, YOLOv8, TensorFlow/Keras, Scikit-learn, MediaPipe

**Database & Cloud:** Firebase

**Tools:** Git, GitHub, VS Code, Postman, Render, OpenCV
